ASTROLOGY.

THE WORLD ASTONISHED

AT THE WONDERFUL REVELATIONS

MADE BY THE GREAT ASTROLOGIST.

Madame H. A. PERRIGO.

She reveals secrets no mortal ever knew. She re-
veals to happiness those who, from doleful events,
catastrophes, crosses in love, loss of relations and
friends, loss of money, &c., have become despondent.
She brings together those long separated, gives infor-
mation concerning absent friends or lovers, restores
lost or stolen property, tells you the business you are
best qualified to pursue and in what you will be most
successful, causes speedy marriages and tells you the
very day you will marry, gives you the name, likeness
and characteristics of the person. She reads your
very thoughts, and by her almost supernatural pow-
ers unveils the dark and hidden mysteries of the fu-
ture. From the stars we see in the firmament—the
malefic stars that overcome or predominate in the
configuration—from the aspects and positions of the
planets and the fixed stars in the heavens at the time
of birth, she deduces the future destiny of man. Fail
not to consult the greatest Astrologist on earth. It
costs but a trifle, and you may never again have so fa-
vorable an opportunity. Consultation free, with li-
keness and all desired information, \$1. Parties living
at a distance can consult the Madame by mail with
equal safety and satisfaction to themselves, as if in
person. A full and explicit chart, written out, with
all inquiries answered and likenesses enclosed, sent by
mail on receipt of price above mentioned. The strict-
est secrecy will be maintained, and all correspondence
returned or destroyed. References of the highest or-
der furnished those desiring them. Write plainly the

California Politics.

If doing penance forwards one's prospects for salvation, we stand an excellent chance. The mortification endured in reading a basket full of California papers daily is more humiliating than doing penance in sackcloth and ashes, as it enters the soul, and impresses a sincere Christian, like oneself, with the vanities and follies of this mundane sphere. Gorham wants to be Governor; so does Haight. The former was nominated by the Union Convention; the latter by the Democrats. The Union papers support Gorham in a very odd way. Some of them write him up as "smart," "honest," "can edit a daily"—which is some evidence of his fine s; others write him down "a knave," "damagogue, surrounded by a large circle of very, very needy admirers. Still they go for him; and some of them take a good slash at him; but lay him bare as a snail. The *Bulletin*, *Alla*, *Call* and *Union* charge him that he was nominated by fraud. They wanted Pixley; but the Pixley fraud didn't win and the Gorham frauds did. In other words the nominee out-frauded the Bay papers. This is now the subject that fills those papers. The *Examiner* is patting both sides of the Union question on the back, and supporting Haight at the same time. Mc Carthy, of the *Flag*, who is up for State Printer on the Union side, is catching fits from all quarters. He is in a condition now to exclaim, "save me from my friends!" Under the circumstances we feel it is good for us to be here; for if all that the papers say about men over there is true we wouldn't have a ghost of a chance.

A Letter "as is" a Letter.

One Jacob Downing declines to raise a company of Volunteers to fight Indians in Colorado, and, in a letter to Gov. Hunt setting forth his reasons therefor, published in the *Rocky Mountain News*, he speaks the following notion of his of William Tecumseh Sherman out to public admiration. The "Maj. Gen. Commanding" had better do something, or those "Jake" Downings will spoil his Presidential prospects, so they will!

"That if the United States desires the services of the citizens of Colorado Territory against the Indians, it ought not to be beneath the dignity of even a Lieutenant General to request such services, and that if we are to arm, equip, and unarm ourselves, I think the Governor ought to call out the militia, and acting independent of the Lieutenant General and his subordinates, make a campaign against them, whose fruits would furnish our romantic eastern friends and the bilious old maids at Washington with sufficient material for complaint a hundred years hence. Do not beg the Lieutenant General, or even the United States, to accept our services. When we were engaged in a war with the rebels, William Tecumseh thought it no harm to lay waste the South, to burn the habitations of innocent women and children, to take the best cow or pig from the defenseless mother and child, or even to appropriate the hair loom of the family rendered sacred by the many endearing associations of the past; though when his friends, the Indians, murder and scalp the defenseless emigrant freighter or settler, the Lieutenant General, with all the flourish and froth of a plumed buzzard, imposes upon us the necessity of *organic prudence*."

San Francisco, June 21.

The Democratic State Convention adjourned sine die to day. It has nominated the following ticket: H. H. Haight, of San Francisco, for Governor; Wm. Holden, of Mendocino, for Lieutenant Governor; H. L. Nichols, of Sacramento, for Secretary of State; Robt. W. of Nevada, for Controller; Antonio Coronel, of Los Angeles, for Treasurer; John W. Barrett, of Mineral, for Surveyor General; Joe Hamilton, of Placer, for Attorney General; Thomas H. Sells, of San Francisco, for Harbor Commissioner; George Sickles, of Truckee county, for Clerk of the Supreme Court; Don W. Gelwick, of El Dorado, for State Printer; R. O. P. Fitzgerald, of San Francisco, for Superintendent of Public Instruction; R. T. Sprague, of Shasta, for Judge of Supreme Court; For Congress—First District, S. Bartlett, of San Francisco; Second District, J. W. Griffith, of Sacramento; and the Third, Jas. A. Johnston, of Sierra.

PACIFIC TELEGRAPH

(SPECIAL TO THE "DAILY UNION-VEGETER.")

St. Petersburg, June 23.

His majesty, the Emperor, arrived home from his visit to Paris.

Vienna, June 22.

Accounts received here state that the people of Croatia are greatly opposed to a union with Hungary.

London, June 23.

A dispatch received here to-day, from Constantinople, asserts that the Sultan has acceded to the proposition of European powers for a joint commission to inquire into the grievances and demands of the people of Candia.

New York, June 23.

The Ocean Queen, from Aspinwall the 15th, has arrived. She brings \$1,145,000 and 283 passengers. Fighting was going on all along the Magdalena river, and communication between Bogota and the coast were cut off. No other news of importance.

New York, June 24.

The *Herald's* New Orleans special says, that the yellow fever appeared in this city.

The *Tribune's* Galveston special says, the opinion of Attorney General Stanberry is already bringing forth fruit. The spirit of revolt is strengthening. Mayor Howland, who was removed by General Griffin, refuses to recognize the military authority.

The *Tribune's* Washington special says, letters and telegrams were received by the Union Congressional Executive Committee from enough members of Congress to insure a quorum in July. A short summer session is a fixed fact. A number of letters from Republican members state they will come on condition that the session will not last over three weeks at farthest. They do not wish to proceed with any further business in Congress, but merely that it be fixed definitely what the Reconstruction act is, so that the President and Attorney General Stanberry be prevented hereafter from giving any more trouble and hindering the execution of the law. It is evident, also, from the tone of the letters, that an attempt will be made to have Speaker Colfax announce the committees immediately, so as to be able to go right to work. This plan is favored by those who are anxious to impeach the President, and by others opposed to Secretary McCulloch, who will present his financial policy, and especially in respect to the present system of National banks. Those in favor of a long session will be kept up long enough to settle definitely the question of the President's impeachment.

Jeff. Thompson has written a letter endorsing the sentiments of Gen. Longstreet on reconstruction. Gen. Longstreet says he did not intend to ally himself with the Radical party, but only gave what he thought was the best advice to his southern brethren, in his recent letter.

The *Herald's* special says, a secret society is stated to exist in Memphis, which is said to be one of many hundred existing throughout the State, among the colored population. The organization is ostensibly for benevolent purposes. In one of its degrees it requires members to take a fearful oath to murder those who abandon their ranks.

New York, June 21.

California flour is decidedly higher.

Berlin, June 22.

Persons just from Hungary report that the Emperor Napoleon continues to purchase horses for the use of the French army on a large scale, for that country. The Prime Minister, Count Bismarck, left this city and has gone to Pomerania, it is said for the benefit of his health.

The Queen of Prussia leaves on a visit to Queen Victoria, and will be at Windsor Castle next Tuesday.

Paris, June 23.

The Emperor Napoleon forwarded an autograph letter to Marshall Valleant, requesting him to transmit his thanks to the Czar, congratulating him upon his happy escape from assassination on the 6th inst.

Washington, June 24.

In the Barrett trial, the court overruled the motion of defense asking for the recall of witnesses for the purpose of cross examination.

New York, June 24.

Several large breweries were seized for making insufficient revenue returns.

The alleged Lord Napier, who was arrested on the charge of defrauding Baltimore & Co., disappeared after being bailed out.

It is contemplated by the Masonic fraternity of Brooklyn to give a grand reception to President Johnson on his return from Boston. Should the proposed reception be given, upwards of twenty thousand Masons, in full regalia, will parade.

Washington, June 24.

The Commissioners of Internal Revenue have decided that the tax is to be increased on the value of flannel and wool, when dyed,

printed or bleached, and to be assessed at the same rate as that imposed upon original or brown goods.

The difficulty between the bricklayers and superintendent Millet, at the Treasury extension building, has not yet been settled. The strikers still hold out. They have appointed a committee to wait upon the Secretary of the Treasury and members of Congress in regard to the matter.

Berlin, June 24.

The Baron Von Der Heydt, Minister of Finance and acting Prime Minister in the absence of Bismarck, closed the session of the Prussian diet to-day. In his speech to the members of the Upper and Lower Houses, on this occasion he said, cordial and intimate relations are now existing between his majesty the King of Prussia, and his powerful neighbors.

Lawrence, Kas., June 24.

The grading parties on the Pacific Railroad seventy miles west of Bunker Hill, were attacked by Kiowa Indians on Saturday, and three men killed and the remainder driven off. Work on the road was entirely suspended beyond Wilson's Creek. Unless prompt measures are taken by the military, the progress of the road must be greatly retarded, and the lives and property of the people on the border totally unprotected. Gov. Crawford is making an effort to obtain arms and ammunition from the military to arm the railroad employees and citizens in the disturbed district.

St. Louis, June 24.

General Sherman issued a circular in substance as follows: Treaties must be preserved, but Indians going beyond reservations, and committing crimes, fall under the military control, and are not subject to punishment by the civil authorities. The military division is divided into three departments: Dakota, commanded by Gen. Terry; Platte, by Gen. Augur; and Missouri, by Hancock. If each State or Territory will organize a battalion of mounted men, they will be called for by the department commanders, in case of emergency, to be mustered in accordance with the law, and wait appropriations from Congress for pay. It gives directions to military authorities to be prepared to pursue at all times horse thieving bands who are endeavoring to avoid the military. When stock is traced to a reservation, a demand should be made of the agent, and if the tribe is entitled to annuities, such annuities should be chargeable with the value of the stolen property. The Governors of States and Territories interested, are requested to communicate freely with the department commanders, and appeal only to Gen. Sherman.

Boston, June 24.

Early this morning the streets were crowded with citizens from the surrounding country. The city was decked with flags along the route of the procession. Every window, doorway, balcony and house-top from which the display could be seen, were occupied at an early hour by the State and Municipal authorities. Nearly all places of trade and labor were closed, and the people all united in a general holiday. The dedicating ceremonies commenced at nine o'clock; in these none but the Masons participated. The President, Postmaster General Randall, Major Generals Rowse, Augur, Basal and Morris were present. After the ceremonies closed, the President expressed his sincere and profound gratitude at being present with the Grand Lodge on this most interesting occasion. At the conclusion of the President's remarks the session of the Grand Lodge terminated by time in private ceremonies at a hall. When concluded, the Masons, who had been forming at the Commons, were ready to move in procession. They joined those who had been engaged in the Temple exercises and now in unbroken line, they proceeded through a number of the principal streets and squares. The procession consisted of eighteen divisions, commanded by W. D. Streaton, Grand Marshal. In addition to the encampments of the State, there were encampments from Rhode Island, New York, New Hampshire, Maine, Pennsylvania, New Jersey and the District of Columbia, together with Knights from other States. The St. John Lodge of New York was instituted in 1751, carried its old Washington bible, upon which Washington took the first bible oath of office as President of the United States. The lodges from Maine, Illinois, New York, Washington and other cities and States were in line, with strong representations of organizations in England and the British provinces. It is thought upwards of ten thousand Masons were here in procession. There were many decorations along the route of a gory character. The President stood most of the time with hat in hand and acknowledged compliments paid to him. Banners were occasionally thrown into the carriage. There was much enthusiasm everywhere. The only allusion to politics heard was an exclamation of "no impeachment!" A new law was delivered by S. W. Bradley, Chief of the Grand Lodge of Massachusetts.

His throne was as "origin, morality and offspring of the Masonry." An original one was sung. It closed with prayer, doxology and benediction.

New Orleans, June 24.

Advices from Queretaro of the 8th, San Luis Potosi the 11th and Monterrey the 17th, via Galveston, say it is reported that as soon as Marquez was assured of the betrayal of Queretaro by Lopez he proceeded to open certain documents which had been left with him by Maximilian. Among them he found one containing a written abdication signed by Max. in favor of young Iturbide. Marquez thereupon immediately proclaimed Iturbide Emperor of Mexico under the regency of the Empress Carlota. He also arrested 30 of the most notable Liberals in the Capital and imprisoned them as hostages for the safety of Max. and his companions. No authoritative denial of the authenticity of Max.'s proclamation; it is still believed to be genuine. It is stated that the counsel of Max. have been refused in their request for the postponement of the trial for 30 days, that they might have time to prepare for their defence. It is also reported that the Emperor was sentenced, and there are rumors that he has been executed, but they can be traced to no good authority. The Imperial General would only surrender at Queretaro on honorable terms. The terms of capitulation state that the surrender was made in accordance with the established laws of nations. Maximilian, the Liberal General, agreed to these terms. Maximilian was not shot as reported, but brutally murdered while lying dangerously wounded at Queretaro. The last report from the City of Mexico says Marquez has commenced executing his hostages, and several had already been shot; the names not given. The death of Mendez is confirmed. All foreign prisoners taken by the Liberals, numbering four or five thousand Austrians, Belgians and Frenchmen are on their way to Genoa.

New York, June 25.

The *Tribune's* New Orleans special says General Sheridan telegraphed to President Johnson at Boston yesterday to remove Gen. Sheridan at once.

The *Times* in a double headed editorial this afternoon says of General Sheridan's letter: "Neither the history of this Republic, nor that of any modern government affords such an instance of arrogant presumption, insulting insubordination and defiance by an inferior to superior officials as this letter exhibits. Not only defiant, but insulting and disrespectful. If the conduct and language of this remarkable document is sanctioned by any considerable portion of the Southern people, the institutions of the country had better be resigned at once to the flames, and our Republic delivered to an anarchy and chaos, through which Mexico has been struggling for the last 40 years, caused from the audacity and disturbance of military chieftains and the overthrow of the authority of civil laws."

Boston, June 25.

The President was received in the Capital this morning. He was greeted with cheers by thousands of people who witnessed the scene. The President was welcomed to the Hall of Representatives by Governor Bullock, who made a brief speech, in which the President replied. Lieutenant Governor Claflin extended a similar welcome, which he also replied to. He was then conducted to the Senate Chamber, Governor's Room and other parts of the Capital. The President and suite visited Bunker Hill Monument and Charleston Navy Yard. The President leaves Boston to-morrow, going direct to Hartford, where he remains till the following morning, and then visits New Haven.

Portland, June 25.

The Democratic State Convention met to-day and nominated F. E. Pillsbury for Governor.

Chicago, June 25.

A fire at Council Bluffs, yesterday, destroyed a large warehouse and the Empire block, also a number of other buildings. Loss, \$300,000.

The *Times's* Washington special says, both administration papers here demand the removal of Sherrin. Dispatches has been sent to the President from Boston, urging his removal. Sickles requests to be relieved from his command. The House Judiciary Committee was unable to-morrow to close up the impeachment investigation.

(Several more pages of telegraph on hand, but finding no room in our spacious paper will have to lay over. They are not important.)

"STILL THEY COME!"—From the Colorado Register, of the 15th inst. We glean the following:

"The Rev. Mr. Miller, now on his way to Salt Lake City, will preach in St. Paul's church, Sunday next, morning and evening."

Good! We need a couple of dozen Ministers of the Gospel here, badly. They can do more good in abolishing the man's slavery existing here, than the valley full of additions. "Prove all things, and hold fast that which is good."

C. J. HAZARD, General Agent for the Vedette.

Another of Them.

The editor of the Montana Post takes a fling at the Mormon people. We presume he was strengthened for the work, by the Mormon bread and butter with which our people have supplied that territory. The Post-man makes his attack upon us on the paradoxical principle so commonly acted upon by those who condemn and tarasteen the Mormons. The Mormons are credited with industry, thrift, economy, fortitude, enterprise, ability, wealth, but as this is a long string of good things, per contra there is something said in general terms about infamous and detestable criminal practices, pernicious and demoralizing institutions, hostility towards resident unbelievers and the Federal Government and its officers, intimidating courts, defiance to the laws, locally legalized abominations, and so on.

We have lived in this city quite a time, and must confess to utter ignorance of the prevalence hereabout of the crimes somewhat indefinitely preferred by the Post. We suppose the Post people know all about such crimes being common here, on the principle that one must go from home to learn the news. We do not know but that we might live in Salt Lake all our days and innocently consider our people a very decent, law abiding and worthy sort of people, did not our neighbors in Montana and other Territories and States frequently inform us in strong terms that we are wonderfully mistaken if our thoughts run in that direction. We are more energetically than amiably assured that we are entirely in a dark concerning the character of our people, who, though they have many industrial and economical virtues, yet are very monsters of iniquity, and merit and must eventually receive condign punishment. Well, really, Heaven bless us! Who would have thought it. Is it possible that the inhabitants of Utah, whom we in our simplicity think quite equal to the average of Americans or other living humanity in all sorts of virtues, can be really so far in the rear? Well, well! We shall have to cry out like the Apostle to the Gentiles—We the chief of sinners are! But we certainly could not have believed it, unless we had been told, and even now it seems strange, passing strange, and we shall have to consider the subject a little.

So far as the good faults of our people are concerned, our modesty permits us to doff our hat and say merely that we regard things are so. But we are concerned about those criminal matters charged, for none of our people would ever dream they were half so bad as they are represented, if they were not told to the contrary by editors, and lawyers, and judges, and parsons, who, everybody knows, never tell anything but the truth, and no more of that than they are well paid for.

We are in a great loss to know what those infamous and detestable criminal practices, pernicious and demoralizing institutions mean. We have not the remotest idea of any such things in connection with the people of Utah. We know that a great many hard things have been said of the inhabitants of Utah for their vigorous and persistent opposition to certain criminal practices indulged in elsewhere, but we are very certain that nothing of the kind has been encouraged by our citizens. We are aware that in New York and Missouri and other States recently, the legalizing of the abomination of prostitution has been strongly advocated, and that at Nashville, during the war, that abomination was "kindred" legalized under military law; yet we do not know of the first citizens of Utah that ever dreamed of advocating any such corruption.

As to hostility to unbelieving residents, to the Federal Government and Federal officers, as such, it is entirely a mistake. There is such a thing as political hostility, commonly indulged in by many of the citizens of the United States, both towards persons and institutions, but less by our citizens than any others, materially less. Unbelieving residents, men and gentlemen, are as civilly treated and as free from molestation here as in any city in the United States, quite so.

Intimidation of courts and defiance of the law we know nothing of. We believe, however, some of the Courts have tried to intimidate the jurists and other citizens. This is now the matter stands, so far as our recollection serves.

In regard to defiance of the laws, we must reiterate that we have frequently stated that our community are the most law-abiding that we know, but that there have been Federal officers and unbelieving residents here, of whom no man could conscientiously say as much.—Salt Lake Telegraph, 25th inst.

GENERAL GRANT is said to believe in the fact that we are to have a general Indian war. The Commander-in-Chief is always sensible.

REMARKS BRO'S. have just received, by Express, latest styles of Business Suits.

JUST ARRIVED.—Fred Auerbach, of the firm of Auerbach & Bros., has just arrived in town, direct from New York, where he has been purchasing a large stock of goods. Look out for them.

THANKS.—We are told that the rendering of "Gilda" and "Paddy Miles' boy" on Tuesday night would make a horse laugh. The audience could tell which was the farce by reference to the programme. The managers are going to close the "shop" for a while.

1 per.—Yesterday morning by a lady, a purse containing \$70. The size of the bills being a \$50, \$20 and \$10. The finder will confer a great favor and be handsomely rewarded by leaving it at this office or at the residence of Dr. Sprague. Bring it and receive the thanks of the lady.

DEATH STAINING DOROS IN THE FACE.—Some unfortunate canine was "pizen'd" in the neighborhood of the Telegraph office—so says that paper. It intimates that some of the butch rats strangled it. Don't know the facts, but it is asserted that it swallowed a piece of the Telegraph which was fastened to a piece of meat, and "went dead" instantly. It is very hard to digest the Telegraph.

"HEAR GOOD INDIAN."—On Monday evening last "Ugh!" made a raid on Cheeney's ranch, about 80 miles south of here, between Summit and Salt Creek, and drove off a large band of stock. The visit was made between sundown and dark. We are authorized to state, positively, in defense of the raiders, and to allay any misapprehension that may exist, that they did not steal the ranch.

REMARKS, EVERY TIME!—A. A. Hirst started yesterday to commence mining in earnest, in Cottonwood Canyon. Capt. Jack an experienced miner, will be in charge. The ledges are to be tested in a thorough, practical manner. He comes now with ten men, and will increase the number as the work progresses and necessity demands. There will be no foolishness tolerated in making it a success.

ALL HAIL, BRIGHAM!—On a beautiful summer morn in the month of June, in the year of grace '97, the dust begimmed traveler "mosey-ing" along the State road, south of the extensive village, could find in any object to feast his eyes upon. Four honest, but uncouth miners "might be seen" wending their way to the mouth of Brigham Canyon and shortly afterwards suddenly disappeared up the ravine.

(To be continued.)

STANOW, BUT TRUE.—A few days ago a stranger from Denver, calling himself in the name of J. Davis, got a horse from Van Dyke at the California Stables to go below here some 35 miles. He did go down that far, and then went to Provo, where he magnanimously offered to swap for a less valuable animal on change for "the grand cub." Van got wind of the chap's doings, and Capt. Staples darted after him, captured man and beast, brought the former to Provo, where he was held as an equivalent for \$500, and the latter to this burg. The Davis family is out of luck in Utah.

RUNAWAY.—Yesterday morning a buckboard in the rear of a horse, and close to his heels, came tearing past the Veterinary office in fine style. At the corner of the street opposite the Idaho store it right whirled, and dashed down the prolongation of the State road that leads through town to Brigham's gate. In attempting a "right about face" the outfit braved off a fence and halted. The buckboard sustained a compound fracture in the wiggle-toe-dum, and was also injured in the forward starboard wheel. The horse was very much chagrined.

A SPECIMEN.—We recommend to the readers of the Vedette a careful perusal of the article published to day from the Telegraph. It is a fair specimen of the best productions appearing in that journal from time to time. That is the kind of innocent twaddle set up to defend Polygamy and other violations of law. We would review it out of respect for the mass of the people here, but defer to the Montana Post that caused its production. Again we say, read it carefully and you can form an idea of the good sense and logic used in the composition; and how clear it is demonstrated that "two wrongs make a right."

WORK OF MADAME REMOR.—The old lady can be relied on generally. We met her "by chance" yesterday, and she had just time to whisper that the "devil" was to pay. Things "is" working an awkward of late that she really is in trouble. In her ward the Saints are going, at the next conference, to make the Presidency snipe out of the Young family—so that there will be no more of this outside impertinence and intermeddling with the funds or anything else. Brigham's temper is giving way at the outrageous manner in which some of the Saints are acting, and per consequence, his health is impaired. He is talking of visiting the Sandwich Islands this summer to investigate life frame; and may go over to King Kamehameha sooner than is anticipated. If he concludes to go, he will dine with the Gentiles once or twice before starting, and that will soften old apostles somewhat. The Madam is a regular news-monger, and said she had something important to relate privately, pretty soon. If she does we will print it.

Free to Everybody.

A large 6 pp. Circular, giving information of the greatest importance to the young of both sexes. It teaches how the homely may become beautiful, the despicably respected, and the forsaken loved. No young lady or gentleman should fail to send their Address and receive a copy post-paid by return mail. Address P. O. Drawer 21, Troy, N. Y.

MADAME E. F. THORNTON, the great English Astrologist, Clairvoyant and Psychometrist, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the "chromoscope," guarantees to produce a life-like picture of the future husband or wife of the applicant, together with the cause of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can attest. She will send when desired a certified certificate or written guarantee that the picture is what it purports to be. By inducing a small lock of hair and stating place of birth, age, disposition and complexion, and including five cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. KNOW THY DESTINY.

A YOUNG LADY returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft, rosy complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the *Helmbold's Fluid Extract*, and considered it an invaluable acquisition to any lady's toilet. By its use any lady or gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, and healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface clear and beautiful. Price \$1.00 per bottle, or Express, on receipt of an order to W. L. CLARK & CO., Chemists, 303 West Fayette st., Syracuse, N. Y. The only American Agents for the sale of the same.
